CHEQUERED/ PAVING TILES

e-CON is an established name involved in the manufacturing and supplying of a wide array Concrete Tiles with the help of our advanced manufacturing facility. We manufacture an extensive range of chequered tiles to clients. These are widely used in parks, restaurants and homes. The range of Chequered Tiles is manufactured utilizing quality raw material and is known to have a perfect finish. Our range has perfect finishing and gives a unique look to the interiors as well as exteriors.

e-CON Chequered Tiles are the ideal solution for external flooring in heavy traffic areas - offering anti-slip flooring that gives a better grip and does not wear out easily. Its a heavy duty combination for heavy duty applications. Our Chequered tiles have exceptional strength to withstand the toughest daily grind and the heaviest wear and tear. Manufactured under hydraulic pressure, they are more wear-resistant than ordinary chequered tiles. An ideal choice for parking lots, driveways, pathways, swimming pool decks, building compounds, petrol pumps, warehouses and heavy traffic areas. Our chequered tiles are available in a range of patterns and sizes to suit both regular and heavy-duty applications.
